### President appeals

Dear old friends,

It is going to be 23 years since ORCA was established. In this long journey ORCA probably could yet not make any significant achievements but one of its achievement is that ORCA is still now surviving and wishes to survive ever and forever Inshallah.

The feelings of the last days are still reigning amongst us and still

## Editorial

Despite so many odds, mainly due to financial strain this time again Span publication has been little delayed. Happy New Year. We wish that the very first morning of 1996 might dawn with all of us with a shining promise of peace and prosperity in every nook and corners of our lives.

The last month is the colorful month that marks our liberation. We respectfully remember those who have sacrificed their humble lives for the betterment of our future. May their memory ever remain cherished amongst us and our future generation.

Batch news is not reaching us properly. Batch representatives are requested to send the batch news well in time. We are also not getting upto date information of our college, our alma-mater. College Cultural Prefect is requested to send the college news to us.

ORCA Endowment Fund collection driving is going on. We ardently request all members to come forward and ensure the fulfillment of the fund in a short time.

do we haunt for the lost days in the sandy campus of Rajshahi Cadet College besides the then fierce flowing the Ganges. We still love to smell the old Mukhterpur village

and love to find out the lost best days of our boyhood in every nook and corner of RCC campus where the memory is full of love, abundance and naughtiness.

Now it is time for us to come forward and lend our helping hands to let this organization survive and breath at least. Quite a number of times it was felt by quite a number of Executive Committees to give a drive for ORCA Endowment Fund once for all. It is this Executive Committee who has taken up this challenging task of achieving the Endowment Fund at last. The target of each batch has been fixed with the respective class representatives keeping in view the actual position of the batch ex-cadets. The accumulated fund of the target will be kept fixed in the form of Fixed deposits, ICBs or Defense savings certificates and keeping intact the principal amount, ORCA will run its day to day activities from the interest of the principal amount. At the present moment ORCA's fund is negative. The salary of the Office Secretary is unpaid for the last nine months, the office rent is also unpaid for the last nine months. The conveyance of the ORCA workers can even not be paid. We have a plan to publish ORCA directory with the latest address of the ex-cadets. Publishing of Span has been delayed due to fund short fall. ORCA "Re-Union" is ahead of 1 (one) year. These are all gigantic tasks. Despite all such odds ORCA has not yet ceased in providing scholarships on average 7 to 9 needy students every year for the last nine years.

The ORCA fund Driving Committee members are now on the road who are going door to door once for all this time. Please at least fulfill the target of each batch. The names of each and every donor with his donated amount batch wise will be published in the Span in due time. Once a batch fulfills its target the batch members of the said batch will not be approached anymore but unless the target is fully made they will keep on approaching them until their targeted declared amount is met.

It is further mentioned that the batch target is nothing unrealistic and this has been fixed after extensive discussions with the respective batch representatives and the Executive Committee. For the time being our target is upto 18th batch who are earning members. Eventually other batches will also have to donate to ORCA once they are earning members.

In every batch there are probable one or two donors who alone can meet the target of their batch alone by the grace of the Almighty. Let them come forward and fulfill the target of their batch at least and save ORCA. Whoever we are and what ever position we are holding at the moment in the society by the Grace of the Almighty, let us not forget for a moment that Rajshahi Cadet College played pivotal role in our reaching this position in the society today. Let us keep alive the spirit of friendship & brotherhood amongst us and by fulfilling the respective batch targets, let us assure ourselves not to forget the nostalgic days passed in the campus of Rajshahi Cadet College which will remain cherished for the rest of our humble life. Let ORCA survive, LET ALL OF US PROSPER TOGETHER.

M. Siddiqur Rahman.

# Unemployment!

Are you a prospective job seeker? Why don't you keep touch with ORCA office or send your detailed curriculum vitae with your specialization. Well established ORCA members are there, they may take your responsibility. Though ORCA doesn't give the assurance of your employment, it can take a positive role. This was a major goal of forming ORCA- that can be said to prosper together. Don't you know the ORCA motto "Let all of us prosper together"? So be hurry and stand in queue! We will make your dossier flourish.

## To Northern Zone

ORCA pays a great attention to its North Zone. Next re-union is going to be held in this year. A new ORCA directory is going to be published. ORCA Endowment Fund collection is going on. For all these ORCA needs the help of Northern Zone. So Northern Zone is requested to keep contact with ORCA.

**PICNIC  
 POSTPONED  
 FOR THE TIME  
 BEING**

Picnic is an usual ORCA activity. ORCA members desire for a picnic in the winter every year. But this time ORCA picnic is postponed for the time being.

ORCA moved to have a picnic by river cruising. But due to financial problems it could not be materialized as river cruising is too expensive. Registration for river cruising would go very high and you know ORCA is not in a position to subsidize it's members. Then again we were to go to the same old Savar Dairy Farm which is not appreciated by most ORCA members since it has been much visited already. Public picnic spots were not available. Again The political instability and uncertainty has also been a factor. Owing to such uncertain situation ORCA Executive Committee decided not to go for any picnic for the time being. But don't worry folks! We will hopefully arrange a big stuff after the improvement of political situation. And do you know the '96 year ending Re-Union? So just count on your days and have fun.
